

From Our Principal:

Dear Parents and Students,

Welcome to Meehan School. I want to extend a warm welcome to new and returning families. This is a great place to be! We think you will enjoy the learning environment that has been established at Meehan. We encourage you to get involved by communicating with teachers and staff, supporting the programs provided, and sharing your own gifts and talents as you see fit.

The Meehan staff has a reputation for working hard to ensure the academic success of each student in our building. As the principal at Meehan I emphasize high academic expectations, respectful behavior, and safety. This year our district is implementing a federal initiative called Response to Intervention (RTI). It involves administering a universal screener for reading called AIMS Web, and providing necessary interventions so that all students can be successful. Our behavior plan focuses on the Meehan School Code of Conduct: Respect for yourself, others, and property. This plan addresses behaviors which affect the safety of all students.

2009-2010 marks my fourth year as Meehan's Principal. It is rewarding to see the academic, emotional, and social growth of the students as they progress through the years. I am privileged to work with an extremely dedicated and hard-working staff.

Thank you for your support. Please know that my door is open. I value honest communication and the opportunity to discuss the educational process. I look forward to this new year of learning together.

Sincerely,

Jody J. Dahlseng  
Meehan Principal
